## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-20 rejected under 35 U.S.C. 102(b) as being anticipated by Storz (US 5,386,680). Storz discloses a limb protection assembly including a substantially tubular longitudinal body/rigid boot shell having a longitudinal aperture covered by a rigid tongue (5) and has a pair of straps (45) that extends transversely to the longitudinal direction between edges of the longitudinal aperture as shown in figure 2. Further, the tongue has a non-circular cross section which complements a front portion of the assembly and is slidable freely about a pivot (64) to be automatically adjusted about a center of the aperture having a locking means (14) defined by groove and a catch as shown in figures 1 and 2. Additionally, the tongue can be made of at least two plastic components as shown in figure 2.

### ***Response to Amendment***

3. The arguments filed on December 10, 2008 has been considered. In view of such the double patenting rejection under 35 USC 101 has been withdrawn. However, a newly discovered

prior art has prompted this office action to be made new non-final.

***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure.
